

# PRINCE2® Foundation and Practitioner e-learning

PRINCE2® Foundation and Practitioner e-learning is a fully accredited course which can help you to develop practical skills in the most widely used project management method in the world. Incorporating all aspects of the PRINCE2® method at both Foundation and Practitioner level, this course will fully prepare you to attempt the APMG examinations.

PRINCE2® Foundation and Practitioner e-learning is a highly interactive training course which uses the latest developments in e-learning to appeal to all learning styles. This training course incorporates a virtual tutor who will explain each step in the training process; a comprehensive PRINCE2® Project simulation which allows you to practice many of the PRINCE2® disciplines in a safe environment; a structured walkthrough of the entire PRINCE2® method and a comprehensive exam simulator which enables you to practice your exam technique. PRINCE2® Foundation and Practitioner e-learning also includes full tutor support should you wish to speak to a qualified consultant during your studies.

## Benefits

- A virtual tutor who will guide you through your Practitioner learning
- A highly interactive and engaging PRINCE2® Project simulation
- A structured walkthrough of the entire PRINCE2® process model
- A full Practitioner exam simulator which results in exceptional pass rates
- A detailed exercise highlighting the key PRINCE2® manual references
- The course incorporates voice over, animation and graphics to add to the learning experience
- Less time taken to learn
- Increased retention of learning
- Increased control and visibility of progress and achievement
- Accessible from any location resulting in less travel costs

## Target Audience

This course is aimed at anyone who wishes to achieve both PRINCE2® Foundation and Practitioner qualification levels. This course would benefit:

- Project Managers
- General Managers
- Programme Managers
- Team Managers and support staff
- Staff who will have a defined role within a project
- Project Management Consultants

## Why e-learning?

Technological improvements and advances in educational design mean that e-learning is no longer just a low cost alternative to traditional training methods. In many respects our courseware offers training which is superior to the majority of available "classroom" options.

Not only is the effectiveness of the training process enhanced, but also the convenience and overall cost efficiency of e-learning makes it a compelling option for training. Training can be targeted at specific individual requirements and staff learn exactly what they need, any time, any place. Staff also learn at their own pace and can repeat each section as many times as they need during the course and as a refresher.

## What's included?

- PRINCE2® Foundation and Practitioner e-learning
- Downloadable A3 PRINCE2® Process Model, exercise books and study guide available
- Simulators for both PRINCE2® Foundation and Practitioner Exams
- Extensive bibliography, FAQ's and keyword search
- Full tutor support throughout

### Minimum Requirements

The course is designed to run on a multimedia PC with Windows, CD-ROM, sound and display resolution of at least 1024 x 768. Apple Mac course options are also available.
