

PRINCE2® Foundation E-learning Course

ILX Group's accredited PRINCE2® Foundation e-learning training course covers all aspects of the PRINCE2® Project Management method. Using voice, animation and activities, the course takes approximately eight hours to complete which is equivalent to a three-day workshop.

The main body of the course consists of five lessons which cover an introduction to the method and basic concepts and Principles, through to the Themes and Processes which make up the method.

Benefits

- An exam simulator which results in exceptional pass rates
- Increased retention of learning
- Less time taken to learn
- Increased control and visibility of progress and achievement
- Reduced travel costs
- Accessible from any location

Target audience

- New and experienced project staff
- People who may go on to Practitioner training
- Consultants / contract staff operating in a PRINCE2® environment
- Project Managers considering a career in a PRINCE2® environment
- Those wishing to understand the differences between the 2009 and previous version

Why e-learning?

Technological improvements and advances in educational design mean that e-learning is no longer just a low cost alternative to traditional training methods. In many respects our courseware offers training which is superior to the majority of available "classroom" options

Not only is the effectiveness of the training process enhanced, but also the convenience and overall cost efficiency of e-learning makes it a compelling option for training. Training can be targeted at specific individual requirements and staff learn exactly what they need, any time, any place. Staff also learn at their own pace and can repeat each section as many times as they need during the course and as a refresher.

What's included?

- The full course can be delivered by CD-ROM, network, intranet or hosted by ILX
- It consists of video, animations, audio and interactive exercises
- A full student manual reflecting the course content
- Additional features such as sticky notes, a "favourites" option, corporate notes, simple administration functionality, review bar and real time pause
- A comprehensive maintenance service so that courses are kept up to date
- Randomised PRINCE2® Foundation exam simulator
- FAQ's and keyword search

Minimum Requirements

The course is designed to run on a multimedia PC with Windows, CD-ROM, sound and display resolution of at least 1024 x 768. Apple Mac course options are also available.
