## FOUNDATION & PRACTITIONER (P2F&P)

### OVERVIEW

PRINCE2™ is a method for managing projects. It helps you work out who should be involved and what they will be responsible for. It gives you a set of processes to work through and explains what information you should be gathering along the way. But PRINCE2™ doesn't do the work for you; it cannot guarantee your projects will be successful. Good projects, which deliver quality results, on-time and within budget are dependent on the capability of people involved from Project Board down to individual members.

This course conforms to the syllabus for those delegates wishing to gain both PRINCE2™ Foundation & Practitioner level certifications.
