

APMP Qualification (APMP)

The ever changing and dynamic nature of today's projects evidences the need for pro-active management of people, the project strategy and approach, along with the application of sound commercial and project management techniques.

The APMP is an internationally recognised knowledge based qualification (IPMA Level D) that enables you to satisfy the needs of modern-day projects by fully participating in undertakings ranging from individual assignments to large capital projects

APMP is the benchmark qualification for anyone embarking on a project management career, or looking to add project management to their portfolio of skills.

Course Content

The syllabus for the APMP qualification is based upon the Body of Knowledge v5. It assesses the breadth of knowledge in all areas of project management from strategic and commercial implications, to technical, organisational and people management skills required to participate effectively in project management. Areas covered include:

- Context of project management
- Planning and strategy
- Executing the strategy
- Techniques
- Business and commercial
- Organisation and governance
- People and profession

Duration

This is an intensive five day tutor-led training event, followed by a separate examination event.

Pre-Requisites

Candidates attending the professional programme would benefit from having a minimum of two years relevant practical experience of Project Management

Accreditation

The APMP assessment which is held on a separate day involves:

- Three hour duration
- Essay based questions
- Answer 10 from 16 questions
- 55% required to pass

Target Audience

The course is designed for individuals from both the Public and Private Sector including those working in the management of projects ranging from individual assignments through to those working on large capital or change projects. This includes:

- Project Managers
- Project Office Personnel
- Project Team Members
- Recently appointed Project Officers
