

Managing Successful Programmes (MSP®) Advanced Practitioner Workshop

Managing Successful Programmes (MSP®) is a structured framework representing proven programme management Best Practice in successfully delivering transformational change.

This is an intensive workshop based examination session where delegates' practical experience is coupled with the theory of MSP® to give a realistic understanding of real world application.

This workshop concentrates on the application of the delegates previously acquired MSP® knowledge and will involve working, both individually and as a group, through the designated MSP® Care case study from the APM Group.

Course Content

The course follows the standard syllabus for the Advanced Practitioner qualification and will put particular emphasis on the interconnections of the Governance Themes and the Transformational Flow processes, as well as considering how the principles of MSP® could be applied in different situations.

You will work through a set case study during the workshop as well as sample examination papers and exercises. Delegates will gain effective insights and tips for the examination, making them fully prepared for the MSP® Advanced Practitioner examination on the afternoon of the second day.

Pre-Requisites

Delegates attending this course must have successfully passed the MSP® Foundation and Practitioner examinations before attending this workshop. There is some mandatory pre-course reading and activities to complete which will be sent prior to the event.

Duration

This is a two day course with the exam taking place on the second day.

Accreditation

- Essay based exam
- Two questions per paper, 75 marks available in total
- 38 marks required to pass – 50%
- Three hours duration
- Open-book (other material in the form of course notes, examples, copies of presentations, etc. can be used during this examination but no electronic aids, such as laptops, may be used).

Target Audience

This course is geared to those who need to validate their Programme Management experience and differentiate themselves from those who merely know the theory behind MSP®. Delegates must demonstrate this practical experience in answering examination questions. Practical application and a good level of understanding would come from having worked within large programmes, this could include those who have or currently hold roles such as:

- Programme Director or Manager
- Programme Office Staff
- Change Managers or Auditors
- Business Change Managers
- Programme Office Managers
