

# Managing Successful Programmes (MSP®) Foundation

'Managing Successful Programmes' represents proven Best Practice programme management and is a framework for successfully delivering large scale, so called, transformational change through a dossier of related projects and related activities to make the change 'stick'. Whilst not being prescriptive it is very flexible and designed to be adapted to meet the needs of local circumstances. It provides an adaptable route to facilitating change and reaches its ultimate objectives by bringing together the key elements of Governance themes, together with transformational flow processes, all underpinned by common sense principles to enable success.

## Course Content

This course includes, but is not limited to:

- Programme management principles
- Governance themes
- Determining if a change warrants a programme approach and whether it is worthwhile doing
- Benefits management
- Leadership & stakeholder engagement
- Risk and issue management
- Transformational flow processes
- Identifying & defining a programme
- Managing the tranches
