

PRINCE2® Foundation & Practitioner

PRINCE2® is the world's most widely used method for managing projects. It helps you work out who should be involved and what they will be responsible for. It gives you a set of processes to work through and explains what information you should be gathering along the way. But PRINCE2® doesn't do the work for you; it cannot guarantee your projects will be successful. Good projects, which deliver quality results, on-time and within budget are dependent on the capability of people involved from Project Board down to individual members.

This course conforms to the syllabus for those delegates wishing to gain both PRINCE2® Foundation & Practitioner level certifications.

Course Content

This course follows the syllabus set down by the APM Group.

PRINCE2® Foundation includes:

- The process based approach
- Project governance
- Roles & responsibilities
- Product based planning and levels of plans
- Project controls & tolerance
- Management of risk
- Configuration management & change control
- Quality management
- Support services & commercial partnerships

PRINCE2® Practitioner provides candidates with:

- ILX's unique 'Preparing for the PRINCE2® Practitioner examination' workbook, providing sample Practitioner examination papers and marking guidelines
- A review of the entire method, consolidating understanding and addressing any areas of concern
- Syndicate and Individual scenario based exercises, designed to focus candidates on the application of the PRINCE2® method

There is some pre-course reading and activity to complete which will be sent prior to the event. During the event there will be some examination preparation evening work to complete.
