PRINCE2® Training Programmes

PRINCE2 (an acronym for **PR**ojects **IN** **C**ontrolled **E**nvironments) is a de facto process-based method for effective project management. Used extensively by the UK Government, PRINCE2 is also widely recognised and used in the private sector, both in the UK and internationally. 2017 saw an update to the PRINCE2 qualification for the first time in eight years, following feedback from the global PRINCE2 community.

New guidance and exams have been released, with the updated syllabus having a stronger emphasis on:

- The core principles of PRINCE2
- Ensuring flexibility within PRINCE2 so that it can be tailored towards the specific needs of a project
- Re-evaluating the 'themes' guidance to include examples on tailoring
- The clarification on the link between these themes and principles
- Applying PRINCE2's guidance practically, with hints and tips on how to achieve this

If you require a bespoke or in-house solution, training for more than one person, or would just like some more information then please speak to one of our Training Advisors using the number at the top of this page. Or feel free to email us on contactus@ilxgroup.com.

Reasons to use ILX:

- ✓ Quality Teaching
- ✓ Pass Guarantee for Foundation Course
- ✓ Prince2 Accredited
- ✓ High Pass Rates
- ✓ Wealth of Experience

ITIL® Training Programmes

2019 will see the launch of the highly-anticipated ITIL® 4. This new version of ITIL retains all the best bits of V3, but with more emphasis on collaborative working, along with a holistic end-to-end view of product and service delivery.

How is ITIL changing?

ITIL 4 enables IT teams to continue their vital role in modern business strategy. It expands on previous versions, supporting existing investments in ITIL, and provides a full-service digital operating model for delivering and operating tech-enabled products and services. This means it supports emerging technologies, such as robotics and AI, by offering more practical and flexible support as technologies develop.

Whilst retaining all the best bits from the previous version, ITIL 4 will place a much greater emphasis on working holistically, when it comes to delivering products and services, and on the importance of working collaboratively.

What does this mean for ITIL V3?

The ITIL V3 qualification will continue to be available until AXELOS advise that the transition period will cease. Therefore we would encourage you to transition to the new scheme as soon as possible. Once the V3 qualification is phased out, the Practitioner level certification will no longer exist.

To find out how to transition to ITIL 4 if you're at the Intermediate or Practitioner level, or are a qualified ITIL Expert, take a look at our [ITIL syllabus changes](#) page.

If you require training for more than one person, please contact a training consultant directly using the number at the top of this page or email contactus@ilxgroup.com.

APMG-International Managing Benefits™ Training Programmes

The Managing Benefits framework provides organisations with guidance on how to focus on what measurable benefits they need to deliver to satisfy the strategic objectives of the organisation. This allows them to focus limited resources on the most beneficial activities. The purpose of the Managing Benefits guidance and certification scheme is to provide managers and practitioners from multiple disciplines, working in a variety of organisations, with generally applicable guidance encompassing benefits management principles, practices and techniques.

Classroom Courses, Cancellation and Transfer

Classroom courses and their respective exams must be attended within 12 months of the date on which they are purchased by the Customer.

The venue and date of the course will be as advised to the Customer at the time of booking. ILX reserves the right to change the location of the course and will advise the customer as soon as this change is known. ILX reserves the right to cancel or reschedule any course and will advise the customer as soon as this change is known. ILX will use all reasonable endeavours to avoid changes of this nature.

When this is unavoidable ILX will refund, in full, all monies paid by the customer, or at the customer's option apply all monies to a rescheduled or alternative course.

Customer Cancellations and transfers will only be accepted if made in writing and received at least four weeks before the start of a classroom course. Where the notice to cancel and or transfer is given is less than four weeks but more than two weeks, cancellations or transfers will incur a charge equivalent to 50% of the course fee. Where cancellations or transfers are made less than two weeks to the start of a course, a charge equivalent to 100% of the course fee will still be payable by the Customer. The Customer accepts that cancellations and transfers made with four weeks or less notice means that ILX will have difficulty in finding a new customer to take the customers place and that the above fees represent a real and fair pre-estimate of the costs and loss of profits ILX could have made had the customer not cancelled or requested to transfer.

Transfers beyond this point can be arranged but the Customer will be liable to pay a fee.

In respect of Blended Learning courses containing an e-learning and workshop or exam element, the Customer must attend the workshop and or exam element(s) within the Licence Period. Should the Customer fail to attend within this period then ILX reserves the right to charge the Customer another fee to book the workshop and or exam element, which will be charged at the market rate (in current).
