Enterprise Licence

Every organisation is different and each deserves a flexible, customised and dedicated approach to learning and development.

ILX assists organisations in delivering capability improvement programmes to measurably increase both internal and external effectiveness and deliver excellent ROI. Combining the expertise of our world-class Consultants, the quality of our trainers and the excellence of our award-winning e-learning, we deliver tailored learning solutions that deliver real business impact.

We continue to grow our client base internationally, supporting organisations and projects of all sizes. We draw on a bank of experience in successfully addressing a range of challenges, from multilevel, multinational projects to equipping single project teams with the correct mix of skills. Whatever the requirement, ILX has the experience, expertise and the global presence to deliver.

WHAT IS ENTERPRISE LICENCE?

The Enterprise Licence is a unique product designed specifically for our Corporate clients. Within this structure, each individual user will undertake the ILX 3CAT assessment to identify the directly relevant learning modules from the ILX e-learning portfolio that they require to bridge their skills gap. This assessment generates a tailored learning plan.

Delegates are then able to prove and plan effective progress in a modular fashion, able to pinpoint the learning elements to drive project management efficiency without the need to complete entire training courses. This saves time and cost, and allows delegates to nail-out and undertake full accredited courses required to achieve the qualification.

The ILX Connect team provides close support at every stage of this process, to successfully manage the roll out of your learning programme. In this way, obstacles that might negatively impact the learner's progress are removed, driving up the organisation's ROI.

WHY ENTERPRISE LICENCE?

- ✓ Drive measurable business impact with a custom-made learning solution created and delivered to address organisation-specific needs.
- ✓ Enhance project performance by explicitly focusing on identified areas of improvement and targeted development of your Project and Programme communities.
- ✓ Fast-track and maximise ROI with our best-in-class process for rolling out learning programmes, backed by leading Consultants and support teams
- ✓ Save time, effort and money with Enterprise Licence, a unique offering from ILX that incorporates intelligence gathered over 20+ years of supporting Corporate clients.

What's included

An Enterprise Licence is available for any number of users over 10, and includes the following elements:

- ✓ 12 months access to 18 ILX PM [e-learning portfolio](#), equivalent to over 250 hours of learning available to each individual user
- ✓ [ILX 3CAT](#) assessment for each user, providing a detailed individual report that highlights areas of development aligned to specific e-learning modules. In addition, an overall organisation report clearly identifies key areas of competence and development
- ✓ Full support from the ILX tutor panel
- ✓ [Access to ILX CONNECT](#) – Bronze Level which includes:
 - Standard quarterly reporting, to maximise ROI and to accurately monitor and plot learner progress
 - Dashboards that allow the training administrators to define and deliver streamlined internal training processes
 - Exam administration support.
- ✓ [ILX Player App](#) – download the e-learning to a mobile device, to provide access to relevant, usable content on the move, at any time.
