

Stressed by managing resources across your projects?

Do you find it hard to answer these supposedly simple questions?

- On what is my organization working?
- Are we able to deliver this additional project?
- How can we provide the required resources?
- What if ...?

Your Multi-Project Resource Management Puzzle – Solved

Improve your planning immediately by managing your projects, resources, budgets and strategy, all in one integrated, high-level view.

Create achievable plans

by making resources the focus of your project portfolio design

Spot resource bottlenecks across your organization and resolve them with a few clicks

Maximize resource utilization

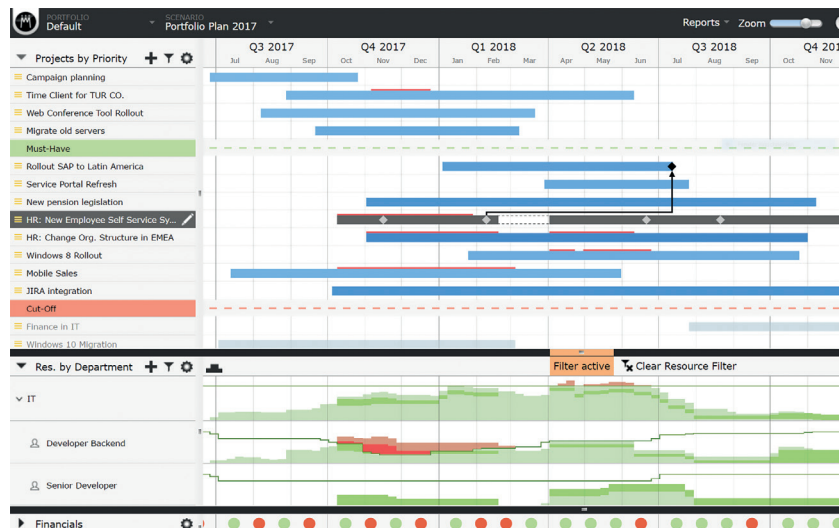

while respecting project milestone dependencies

Work together on an integrated plan

ensuring that solutions, which work for one part of the organization do not create problems for other areas

Respond quickly to new challenges or demands

with real-time, scenario-based simulation

Meisterplan is for you

- Use Meisterplan stand-alone as your lean PPM or as an add-on to your existing project management or PPM tools – in the cloud or on premise
- Be operational fast – set up Meisterplan as your personal PPM in a day

Our transparent pricing is based purely on the resources you plan. Prices start from under \$8 per resource per month. Imagine the time and money your organization will save by using Meisterplan!
