PRINCE2® Foundation VILT

PRINCE2 (PRojects IN Controlled Environments) is a structured project management method and one of the world's most widely used method for managing projects. It helps you work out who should be involved and what they will be responsible for. It gives you a set of processes to work through and explains what information you should be gathering along the way.

The purpose of the Foundation qualification is to confirm you have sufficient knowledge and understanding of the PRINCE2 method to be able to work effectively with, or as a member of, a project management team working within an environment supporting PRINCE2. This course conforms to the syllabus for those delegates wishing to gain PRINCE2 Foundation level certification.

WHAT IS VILT?

Virtual instructor-led training (VILT) incorporates both the personal teaching experience of a classroom, with the ease and flexibility of a virtual environment. Our VILT courses are interactive and engaging, allowing participants to communicate with both the instructor and each other in a collaborative manner.

DURATION

This is an intensive three-day course that prepares you for the PRINCE2 Foundation examination. The training is conducted via a virtual training environment. You need to ensure that you can satisfy the technical requirements that can be found on our website.
