PRINCE2® Practitioner VILT

PRINCE2 is the world's most widely used method for managing projects. The PRINCE2 Practitioner examination measures whether a candidate would be able to apply PRINCE2 to the running and managing of a project within an environment supporting PRINCE2.

Candidates need to exhibit the knowledge required for the Foundation qualification, and show that they can apply and tailor PRINCE2 appropriately to address the needs and problems of a specific project scenario. This course conforms to the syllabus for those delegates wishing to gain Registered PRINCE2 Practitioner level certification.

WHAT IS VILT?

Virtual instructor-led training (VILT) incorporates both the personal teaching experience of a classroom, with the ease and flexibility of a virtual environment. Our VILT courses are interactive and engaging, allowing participants to communicate with both the instructor and each other in a collaborative manner.
